Note: BHP will only stock Off-white/240 volt heaters. Anything else will be considered a "special order" purchase. Special order purchases require added shipping charges. Check with BHP for shipping estimates. **Special orders can not be returned. Special orders require 2-3 weeks for delivery.**

Sizing: The average homes that have R-19 walls, R-38 ceiling, double pane windows, and standard 8' ceiling height require 8-10 watts of cove heat per square foot of living space.

It is recommended that a heat loss/gain analysis be performed on the building to ensure proper sizing. BHP will provide this service at no charge to BHP customers.

10 Year warranty on materials only, replacement charges are not covered by BHP or manufacturer.
